

BETCOIN

ABOUT THE BETCOIN

Betcoin casino is a new blockchain-based online betting platform allowing people from all around the world to BET on sports and casino games enabling decentralized P2P and borderless betting. The decentralized nature of the platform will ensure the users fairness, trust, transparency, security and privacy whereas being based on blockchain, the transaction will be faster and secure with low fee.

OUR VISION

Our vision is to harness blockchain technology for a better betting industry and make the betting fair, easier, more enjoyable and accessible throughout the world.

OUR MISSION

Our mission is to provide the world an easily accessible blockchain-structured betting platform and making the betting industry without boundaries.

PROBLEMS

Unfair conditions

The unfair condition is because the centralized nature of the existing platforms where odds are set massively in the favor of bookmakers.

Lack of transparency

Betting companies never let the bettors know how odds are set and companies or bookmakers even manipulate the odds even after a game starts.

Outdated payment methods

Along with most other things, there is no innovation to the payment method when it comes to existing betting system. That old wire transfer and other outdated payment system still dominating the way the bettor must pay and withdraw in.

SOLUTIONS

P2P betting

Being decentralized, the main advantage of Betcoin platform is the true P2P betting where all participants or the bettors will be connected directly.

Transparency

Being on blockchain, everything on Betcoin Sportsbook and Casino is transparent and recorded on blockchain which can be verified by the bettors.

Visa Debit Card

Partnering with Localcoin and Visa Debit, Betcoin casino platform will enable its users to participate in a BET instantly from anywhere around the world.
